MARTHA RICHARD	F	1.10		1,800.00

PICTORIAL REPORT OF NTALAWANDA VSLA GROUP

Below are pictures of four members who used what was realised from the savings to purchase goats.

1. **Chinsisi Nyali:** used her \$37.21 dividend to purchase goat and buy essentials (food, soap and sugar) and also boosted her business of baking and selling of doughnuts at her home
2. **Manyozo Macheso:** purchased additional goat of which he said when it produces young ones, will be able to sell and used the money to save and buy school supplies for her kids
3. **Patina Akimu:** this young lady used her share dividends to purchase one goat. She hopes that after this goat multiplies by producing more, it will bring more money which will be used to buy food for the family and save some to establish a viable business.
4. **Jennet Malombe:** is a mother of three children, she managed to construct a new red brick house and goat kraal from the money she borrowed money from the group and also with what she realised from her shares.

Jennet's new house
Jannet Matoro's old house ones

Mr Macheso
